James W. Smith Jr.
Division of Oil, Gas and Mining
1588 West North Temple
Salt Lake City, Utah 84116

Dear Mr. Smith:

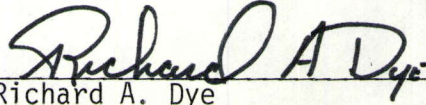

Atlas Minerals hereby requests an amendment to the Calliham Mine,
Mining and reclamation Plan.

An additional 8.8 acres will be required for the mine water impoundment
and evaporation system that was specified in the original application.
This will raise our total disturbed acreage to 44.6 acres. These are the
ponds specified in the original application so this is an amendment in acreage
only.

The ponds are designed for zero discharge and will be built in accord-
ance with Utah State Department of Health Code of Wastewater disposal Regulation
Part III. Enclosed is a general site map, when a construction drawing is
completed it will be forwarded to your office. All reclamation activity at
this site will be in concert with the Calliham Mine Reclamation Plan.

Should you have any questions or require more information in regard to this
amendment, please contact me. Thank you.

Sincerely,

Richard A. Dye
Reclamation Engineer
